

TextMyGov Announcement

White City, UT is pleased to announce the launch of TextMyGov, a simple communication tool that allows residents to receive important updates and access information anywhere using texting technology. This new government SMS service makes it easier than ever for the community to stay informed through a reliable text message from government officials.

We will officially launch this mass text notification system on Thursday, August 20, 2026. Residents may receive an initial government text message from **91896** on behalf of White City to introduce the service. Participation is optional, and anyone may opt out at any time by texting **STOP**.

If you do not receive the initial message, you can sign up by texting the keyword "WHITE CITY" to 91896. After sending the keyword, you will be asked to reply YES to confirm participation. Once subscribed, residents may receive government text messages related to events, important updates, upcoming meetings, emergency notifications, and more.

Residents will also have access to information 24/7 by texting one or two keywords in your question to White City's 2-way texting phone number, **385.474.4645**. This option allows users to quickly receive a government message with details about services, offices, community resources, and other important city information. Next time you have a question for us, try texting this number to test out the service.

You will also receive a contact card that includes the 2-way texting phone number as well as 91896. Save this contact to your phone to ensure that any communication coming from these numbers are from White City and are not spam messages. Text the 2-way texting phone number to find information and report issues. Receive notifications from 91896 and reply **STOP** to opt-out of receiving further messages.

White City's adoption of TextMyGov reflects an ongoing commitment to improving public communication using modern and convenient tools. This service will provide a more accessible and responsive way to stay informed about what is going on in the community and receive government services. Many agencies nationwide are already using this texting technology successfully, and we are proud to offer the same benefits to our community.

Sincerely,

ALLAN PERRY

Mayor
